

DOUBLE BODYSHEET ACCESS DOOR

ACCESSORIES CYLINDER

FILE 4.6
VERSION 3. 22/07/2025

COD. ASPUERV**

TECHNICAL SPECIFICATIONS

Rectangular door to access the silo (1).

The compatibility of this door with different silos is subject to technical evaluation based on the specific characteristics of each project.

It is made up of 3 inner leaves and an outer one screwed onto a hinged frame. Both have a FOAM closing system (10x3mm) to guarantee their watertightness. The closing system has been improved with wing nuts that adjust the leaves to the frame.

The frame is screwed to the silo bodysheet.

It is easy to install and ships as an optional silo accessory.
