

# POWDER PAINTING ROOF, BODYSHEET & HOPPER ACCESSORIES

FILE 1.14  
VERSION 2. 27/09/2024

COD. G01IXXT0000, G01IXXXV0000, G01IXXT6X00

## TECHNICAL SPECIFICATIONS

Consists of applying an 80- $\mu$ m thick layer (epoxy dust paint) on the galvanized sheet (Z600).

This protection system is called duplex, it gets a corrosion resistance bigger than the aggregate of the galvanization and paint separately.

Expensive solution but provides a Environment C4 or C5 atm corrosion resistance.
